

Constables' Conversion

Exceptionally practical - whatever you're doing

With its flexible, airy and spacious practicality the Citroën Berlingo copes with all types of journey, from everyday trips through to longer breaks. Whether its luggage, equipment or just yourselves, the Berlingo gives you the practicality people have come to rely on from Citroën. Two sliding doors make getting onto the Citroën Berlingo a breeze, while the rear tailgate swings up easily to give simple wheelchair access up a gently sloping ramp to the lowered floor.

Engineered accessibility - designed for ease

A unique approach to accessibility and ease of use has enabled Constables to engineer a lowered floor for the Citroën Berlingo. This means that wheelchair access is up a gently sloping, lightweight ramp - counter balanced for ease of movement - that has such a slight incline it rarely requires a winch, saving you time, space and money. Constables Citroen Berlingo also offers the optional extra of a LayFlat ramp. Tested for wheelchairs of up to 190kg, this Constables' conversion demonstrates the quality and engineering expertise that puts Constables at the top of the market for wheelchair accessible vehicles. Like all our vehicles, Constables' Citroën Berlingo conversions are designed and manufactured at our purpose built UK production facilities, which means we can offer the quickest possible delivery from the date of your order.

Travel in comfort - wherever you go

The Citroën Berlingo has been designed for comfort and ease wherever you travel. With a huge windscreen and deep side windows, the interior maximises light and space.

Everyone will appreciate the high levels of noise insulation, one touch electric front windows and remote central locking make life easier, and deadlocks further improve the vehicles security. Constables' conversion of the Citroën Berlingo seats up to 5 people including the wheelchair passenger and driver, and offers you the choice of 10 different seating arrangements when you place your order. In short, Constables' conversions offer the flexibility and practicality to suit everyone - the ideal choice whatever your needs.

Constables Mobility is a Motability Converter Partner - this means that through Motability we can exchange your Higher Rate Mobility Allowance for a new vehicle, enabling you to benefit from 5 years or 100,000 miles of worry free motoring under their Contract Hire scheme (Hire Purchase is also available). Constables Ltd is committed to a policy of continuous improvement and therefore reserves the right to change specifications and make alterations without notice. This brochure does not form part of any contract.

Citroën Berlingo

The Citroën Berlingo is a car for enjoying life!

Constables
MOBILITY 

The Citroën Berlingo

At a glance, you can see that the Citroën Berlingo is a car for enjoying life, for doing rather than thinking. Constables' conversion brings wheelchair accessibility to a car that is modern, dynamic and both truly flexible for the driver and comfortably spacious for the wheelchair passenger. With its wide choice of economical engines and Citroën's benchmark reliability for reduced environmental impact, it's easy to see why this car is, once you've tried it, likely to be your first choice. In fact we'd be happy to bring one to you to try for yourself - we're sure you'll agree!

Enjoyable Driving

All the engine variants benefit from Citroën's expertise, offering a level of driveability that allows you to appreciate the road holding of the converted Berlingo. The new HDi engines are designed to fully comply with the new Euro 5 standards. They offer enhanced performance for versatility, responsiveness and acoustic comfort, which together with optimised fuel consumption and CO2 emissions of around 5g/km mean the new HDi is a more economical and natural choice.

Manoeuvrability

Citroën's huge windscreen and deep side windows offer excellent visibility enabling you to easily manoeuvre safely and quickly in every situation.

With sliding doors for easy access and folding door mirrors as standard, you no longer have to worry about other cars on either side, whilst Constables lowered floor means that the length of our ramp is shorter too.

Modern Safety

The Citroën Berlingo is a model of advanced safety. It starts with the technology that gives you assisted braking, traction and stability and continues with the six airbags and impact protection systems which have earned a 4 star NCAP safety rating. It's the engineering that inspires confidence at every turn and gives you the peace of mind to protect occupants and pedestrians alike.
